

International Specialized Exhibition
SOZH EXPO 2016

**INDUSTRIAL OIL. METALWORKING FLUIDS. COOLANTS. METAL
FORMING LUBRICANTS,**

October 11-14, Crocus Expo, Moscow, Russia

Dear Sirs,

You are kindly invited to participate in the **International Specialized Exhibition SOZHEXPO - 2016**), held on **October 11-14, 2016** together with the **IMTES** (International Machine Tool Exhibition Stankostroenie) in the Crocus Expo Exhibition Center, Moscow, Russia.

SOZH EXPO presents metalworking fluids and metal forming lubricants, technologies and equipment for machine tool industry.

SOZH EXPO aims at exhibiting all variety of technologies for metalworking process, and promoting the exhibitors products in the Russian market.

The use of coolants is an essential part of production in the metalworking industry. The high technologies cool and lubricate ensure the high standards of today's production processes.

SOZH EXPO is a trade show that provides the customers to strengthen their positions in the region and to increase the sales profit. The simultaneous holding of the exhibitions will make the event more effective as attracts more clients both from professional visitors and exhibitors.

Exhibition subjects:

Industrial oil: for metalworking technologies, hydraulic, transmission, compressor, engine, universal, synthetic, semi-synthetic and etc.

Metalworking fluids: synthetic coolants, semi-synthetic coolants, soluble oil;

Metal forming lubricants; Additives;

Equipment and raw materials: heat exchanger, cooling radiators, filters, centrifuges, separators;

Technologies for cleaning: component and surface cleaning; systems and components for cleaning systems;

Protection of surface: corrosion protection of surface, anti-friction coating;

Laboratory services: analytical control, analytical instrument;

Ecology and environmental protection
